

2009/2010 After School Program General Information

The After School Program will be available every day to provide a place for children to relax, refresh and enjoy recess on our beautiful campus grounds. A designated place for students to quietly study will be available. Optional Enrichment Workshops will also be available (usually at a reduced rate) for you and your child to choose from.

The AFTER SCHOOL PROGRAM

The After School program will give your child a safe, nurturing environment in which to wind-down after a busy day.

After School Hours

Monday - Friday, from 3:00 - 6:00 pm

Wednesdays from 2:15 - 6:00 pm

- Located in the 3rd grade classroom
- **Because advanced notice is necessary to provide for proper staffing and snack preparations, reduced rates require advance registration.** Please see information below*.
- **Study Hall**
Study Hall offers a quiet place for students in the After School Program to read or do homework at no extra charge (as long as students are already signed up for the After School Program). A Study Hall Monitor will be on hand for any interested students.
- **Enrichment Workshops**
Children can participate in an exciting array of offerings after school. Enrollment for Enrichment Workshops will be separate from the regular After School Program, but children with Contracts for the After School Program may enroll for a discounted price. (Workshops must be on the same day as the contract.) After school sports programs are not included in this arrangement.
